

ASTM MEASUREMENTS

ASTM Measurements (Physical Properties of Fuels)

Flash Point, Cloud point and Defrosting Point, Vapour Pressure

ICON

Physical measurements for fuels:

- ✓ Defrosting point
- ✓ Cloud point
- ✓ Flash point
- ✓ Colour
- ✓ Vapour pressure
- ✓ Distillation

icon
intelligent scientific analysis

Tactile screen integrated with complete diagnosis tool
ATEX approved Zone I explosion proof, IP65 cases

Sulphur from the ppm to the % Vol

Thermo SOLA : Analysis in fuels and gases

On-line analysis of total sulphur oxidation of the sulphur in SO₂ and measurement by pulsated UV fluorescence

Measurement range: from the ppm to several thousand ppm

SOLA Trace version for measurements less than 2 ppm

ATEX approved

Ametek 682 model Oil/Gas, refinery

- Measurement of % and thousands of ppm of S in the fuel oil (heavy fuel oil, heating oil, crude)
Transmission by x-ray technology
- No maintenance
- ATEX approved
