

OUR PARTNERS

Detection and analysis specialist for nearly forty (40) years, AUTOCHIM offers a range of appliances and services spread out over 2 departments: Gas Detection/Gas and Liquid Analysis

ACI
DETECTION
DEPARTMENT

Stationary
Photoionization Detector

AMETEK PROCESS INSTRUMENT
ANALYSIS DEPARTMENT

Analyzers for process gases and liquids. [For Africa country](#)

AP SENSING
DETECTION DEPARTMENT

Temperature detection and monitoring by optical fibre
Gas and liquid leak detection et de liquides.

ICON
ANALYSIS DEPARTMENT

Liquid physical
properties analyzers.

IAS
ANALYSIS DEPARTMENT

H2S and total sulfur analyser for
gases and liquids.

LUMASENSE ANALYSEURS
INNOVA
ANALYSIS DEPARTMENT

Photoacoustic spectroscopy
field gas analyser.

MSA
DETECTION
DEPARTMENT

Portable multigas
detector
Fixed detection of
flammable,
toxic gases (H2S) and
flames

SENSCIENT/ MSA
DETECTION DEPARTMENT

Open Path Gas Detector for toxic
and flammable gases.

GENERAL MONITORS / MSA
DETECTION DEPARTMENT

Fixed detection of flammable
gas,
toxic gases (H2S) and flames

PROTEA

ANALYSIS DEPARTMENT

In-situ analyzers, FTIR,
Laser
or mass spectrometer
for CEMS
raw gas, process or
ambient monitoring

RATFISCH

ANALYSIS DEPARTMENT

Transportable and stationary
analyzers
of hydrocarbons and VOCs by
flame
ionization.

THERMO - ANALYSERS SOLA

ANALYSIS DEPARTMENT

Total sulfur measurement in
liquids
and gases

TURNER

ANALYSIS DEPARTMENT

Oil in water monitoring,
portable or online.
